

TempGuard® Insulated Liners

TempGuard® Insulated Liners are rugged, all-purpose, paper fiber cushioned box liners that boast more than 48 hours of insulating performance providing a stable thermal atmosphere to protect perishable or temperature-sensitive goods from warehouse to doorstep. This effective shipping container is economical and completely curbside recyclable while offering an attractive package that will delight your customer.

Customer Experience

Our TempGuard® insulated liners are 100% recyclable and have undergone extensive certified thermal testing to provide peace of mind when shipping temperature sensitive goods.

- Customers enjoy a complete curbside recyclable cooler that does not require a lot of storage space.
- Environmentally responsive-100% recycled paper fibers with 25% post-consumer content.
- Pad liners absorb moisture minimizing internal condensation helping to keep individual products dry.

Damage Reduction

Customer-friendly thermal protecting shipper features a single-wall corrugated outer carton, TempGuard® insulated shipping and cushioning padded liners and reusable gel packs.

- Liners are padded to provide impact protection by cushioning goods during handling and transit.
- Flexibility of the pad liner provides a layer of padding between products reducing movement during shipping.
- Constructed from heavy-duty 50# Kraft paper with uniform inner padding that provides excellent cushioning and insulating properties.

Cube Optimization

Choose from one or two-day shippers in four standard sizes available in 500-2700 cubic inches of usable interior space or create a custom solution.

- Flexible liner pads maximizes internal cargo space by efficiently wrapping around internal contents.
- Minimizes outer box size by reducing bulk of internal cooling materials optimizing internal cargo space.

Fulfillment Velocity

Effective temperature-controlled innovation eliminates the need to ship goods in refrigerated trucks.

- Pad liners store flat minimizing storage space.
- Simple to use and flexible enough to quickly place in outer carton.
